Subject: Bodies Catalogue

Hi Alex,

Sorry I left before thanking you for all your help while I was in St. Petersburg. Hopefully, we will be working together again soon. When we parted there was still one label (Please Do Not Touch) that was in need of adjustment. As soon as things are on track again, we will send that adjusted label on to you.

Could I ask you please to send me the Russian translation of the catalogue in digital form? We never received it in a digital format because, as you know, we were working in PDFs to make the catalogue adjustments and the corrections.

It is important for us to have a digital version for our library.

Again, let me tell you how nicely the catalogue turned out. It was due to your attention to detail and hard work--so thanks for that as well.

All the best,

Judy
